**CLIENT RESPONSE:**

Dyaks picked up the brief and turned it round very fast. We were delighted with the solution they offered us and the service they provided throughout the exhibition programme.

# MODULAR VERSATILE STYLISH

## Building aroma a home. . .

Four years on, Dyaks continues to grow their relationship with aroma home. Providing creative and professional exhibition support, project management and installation services.

aroma home Ltd, manufacturers of innovative fragranced gifts, soft toys and other wellbeing products, continues to utilise a cost effective reusable modular system which offers the perfect presentation solution with unparalleled flexibility.

The modular system ensures that different venues and stand space can be configured easily and quickly.

This was demonstrated recently when we were tasked to install a 68 sqm stand at the NEC. Which was then removed, reconfigured into 42 sqm and shipped out to Frankfurt, Germany in the space of two days. This allowed us one night to dismantle, pack and return the stand to our warehouse before repacking into shipping cases and loading onto transport ready to cross the channel the following morning.

## Showcase your business. . .

Dyaks understands that participation in exhibitions around the world is a great way to pitch your products and services to a much wider audience. However, getting your equipment and exhibition stands overseas can be a serious issue and can put many businesses off. From concept to delivery, Dyaks offers the complete exhibition program service. Just turn up on the day and merchandise . . . It couldn't be easier!
